ONE EARTH FILM FESTIVAL 2014

The Midwest's Premier Environmental Film Festival

Thursday, March 6th @ 7pm!

Join us for a View and a Brew at
WIRE, 6815 W. Roosevelt, Berwyn, IL

Revolution is a film about changing the world. The true-life adventure of Rob Stewart, this follow-up to his acclaimed Sharkwater documentary continues his remarkable journey; one that will take him through 15 countries over four years, and where he'll discover that it's not only sharks that are in grave danger – it's humanity itself.

In an effort to uncover the truth and find the secret to saving the ecosystems we depend on for survival, Stewart embarks on a life-threatening adventure. From the coral reefs in Papua New Guinea and deforestation in Madagascar to the largest and most destructive environmental project in history in Alberta, Canada, he reveals that all of our actions are interconnected and that environmental degradation, species loss, ocean acidification, pollution and food/water scarcity are reducing the Earth's ability to house humans. How did this happen, and what will it take to change the course that humanity has set itself on?

*"A mesmerizing psychological thriller with a killer whale at its centre, **Blackfish** is the first film since Grizzly Man to show how nature can get revenge on man when pushed to its limits."*

Blackfish tells the story of Tilikum, a performing killer whale that killed several people while in captivity. Along the way, director-producer Gabriela Cowperthwaite compiles shocking footage and emotional interviews to explore the creature's extraordinary nature, the species' cruel treatment in captivity, the lives and losses of the trainers and the pressures brought to bear by the multi-billion dollar sea-park industry.

This emotionally wrenching, tautly structured story challenges us to consider our relationship to nature and reveals how little we humans have learned from these highly intelligent and enormously sentient fellow mammals.

Blackfish will be shown Saturday, March 8 at 2:30 p.m. at the Oak Park Public Library, 834 Lake Street, Oak Park, IL. This film is rated PG-13.
